"We wanted a straightforward training provider and having spoken to Briefed via a recommendation; their product made sense. **We were impressed by the brand Briefed has been building for itself and I trusted them.**

We've done all the necessary compliance training, and behind that are all the policies, procedures and documents we need to prove we are adopting best practice.

**One of the major attractions to Briefed was that the GDPR resources were created by barristers, delivered by barristers for barristers."**

"The decision to use Briefed to help navigate LOCS:23 was easy. **Their training is approved by the LOCS:23 scheme, they have an in-depth knowledge of the standard and they have undergone the audit process themselves.**

As a result, they have been able to move us through the audit process quickly and efficiently, which was key for us."
